Celina^{PVR} - QTee[®]

ORIGIN: Norway.

- Broket Juli x Williams.

THE FRUIT:

- Sweet, medium-sized fruits with an intense red blush (50%) on a green background.
- Pyriform shape.
- Smooth, white, juicy pulp.
- Pressure 5.5 kg/cm², 12.5 ° Brix, acidity 16.0 g/l.

PICKING TIME:

- 2 weeks before Conférence, 1 week after Williams.

FLOWERING:

- Recommended pollinator: Conférence.

THE TREE:

- Very productive variety that needs thinning.
- Well-adapted to cooler as well as warmer climates.
- Tolerant against fire blight (based on greenhouse tests).

STORAGE:

- Celina^{PVR} is to be picked at pressures higher than 5.5 kg.
- The keeping quality of Celina^{PVR} is excellent.
- Celina^{PVR} is crunchy off the tree and evolves to melting after a few days of shelf life.

REMARKS:

Celina^{PVR} is the new pear sensation. A coloured, highly productive pear with great taste and appeal.
